Workshop Engineer

(2 Positions Available)

Full-time | Permanent
Monday to Friday, 8:00am – 5:00pm
Salary: Competitive, dependent on experience

Join a Growing Family Business

At Sentex Hydraulix, we're specialists in hydraulic and pneumatic products, hydraulic cylinder reconditioning and repairs. As a family-run business, we've built an excellent reputation for quality workmanship and customer service, and thanks to continued growth, we're expanding our team.

We're currently looking to recruit **two Workshop Engineers** to join our friendly, hardworking team. Whether you already have mechanical experience or you're a practical, hands-on person eager to learn a new trade, we'd love to hear from you.

This is an exciting opportunity to develop your skills, work with a supportive team and play a key role in the next stage of our company's growth.

The Role

Working as part of our workshop team, you'll be involved in the complete reconditioning process of hydraulic cylinders, from initial diagnosis through to final testing and completion.

Your day-to-day duties will include:

- Disassembling hydraulic cylinders and components.
- Cleaning, inspecting and repairing components.
- Metal preparation and machining (lathe experience is beneficial but full training will be provided).
- Selecting and fitting replacement components.
- Reassembling hydraulic cylinders to a high standard.
- Recording work completed using our computer-based job management system.
- Helping to coordinate workshop workflow to ensure customer deadlines are achieved.

Occasional Duties

From time to time, you'll also:

- Assist our mobile engineer with the removal and refitting of hydraulic equipment and hoses at customer sites or at our workshop.
- Manufacture hydraulic hoses (full training provided).
- Support with other workshop and business duties as required.

What We're Looking For

We're more interested in attitude than experience. If you're reliable, motivated and enjoy practical work, we'll provide the training you need to succeed.

You'll be:

- Hard-working with a positive attitude.
- Keen to learn and develop new skills.
- Able to work well as part of a small, supportive team.
- Friendly and professional, with confidence in occasional customer-facing situations.
- Someone who takes pride in producing quality work and pays attention to detail.

Skills & Experience

Essential

- Good manual dexterity.
- Ability to carry out some manual handling (lifting equipment is provided where required).
- Good teamwork and communication skills.
- Basic computer skills.
- Willingness to learn and follow safe working practices.

Desirable

- Mechanical, engineering or fabrication experience.
- Metalworking or lathe experience.
- Precision measuring skills.
- Knowledge of health and safety, particularly around hydraulic systems, high pressures and heavy equipment.

Don't worry if you don't have every desirable skill—we're committed to training the right people.

What We Offer

- Competitive salary based on experience.
- Permanent, full-time position.
- Performance bonus.
- Full training and ongoing development.
- Branded work clothing and overalls provided.
- A friendly, supportive working environment.
- The opportunity to grow with an expanding family business where your contribution is genuinely valued.

If you're looking for a varied, hands-on engineering role with excellent opportunities to learn and progress, we'd love to hear from you – email Karl with your CV – shop@sentex.co.uk or call 01724 856451 for more details.
